

## Fire Pits & Coals

Barbecuing outdoors is fun, but stepping in carelessly dumped hot coals makes for a painful experience. Prevention is the only cure for a burn victim.

### **SAFETY TIPS:**

- Always wear sandals or foot coverings getting to and from your sunning location.
- Be aware of tar and hot coals from the fire beds on the beach.
- Dispose of hot coals in proper containers.
- Do not cover hot coals with sand!

### **FACTS AND FIGURES:**

- Severe burns to the bottom of the feet can occur from both sand and tarred pavement during periods of intense heat.
- Hot coal receptacles are provided throughout beach and park areas. Use them!!
